 P F Head and Neck Restraint (HANS): Required with harnesses. P F Structural Integrity: No loose body or interior parts; no structural rust at or near suspension points. P F Doors: Must be operational from inside and outside. 	
P F Structural Integrity: No loose body or interior parts; no structural rust at or near suspension points. P F Doors: Must be operational from inside and outside.	
P F Windshield: No cracks in front windshield in driver's direct line of sight. Does not impair vision.	
<u> </u>	
P F Mirrors: Minimum of single mirror in good condition and securely mounted.	
P F Brake Lights: Functioning and visible brake lights.	
P F <u>Turn Signals:</u> For registered street cars, functioning and visible turn signals, left and right and front and back. Not required for unregistered race cars.	
P F Gas Cap: In place and secure, gasket intact.	
P F Fluids: NO DRIPPING LEAKS of any fluid of any type.	
P F <u>Fluid Lines:</u> Proper fittings and line condition.	
P F Fluid Lines: Proper fittings and line condition. P F Battery: Check for general condition of cables, corrosion, or signs of leakage. Battery should remain securely fastened when wiggled vigorously.	
P F <u>Fluid Lines:</u> Proper fittings and line condition.	

or power steering fluid leaks. Hoses/wires must be in good cond. w/ no cracks/ abrasions, and secured away from all moving parts.

Engine Compartment / Fluids (general): ANY LEAKAGE OF FUEL OR BRAKE FLUID IS UNACCEPTABLE. No excessive engine oil, coolant,

Date of last brake fluid flush: Fluid type:	Brake Fluid: Sufficient brake fluid; premium fluid recommended. Brake fluid must be changed at least annually.
P F Installation of anti-submarine belt per Section 10(h) of Minimum Standards	Additional inspection must be performed to ensure there is no fraying or weakening of harness belts, especially in area of seat punch-out.
P F Wheels - Overall Condition: No cracks, ber	nds or flaws.
P F Wheel Bolts & Lugs: All nuts engaged; pay s P F Wheel Center Locks: Make sure locking devi P F Tires: General good condition. No cracks, cuts, or	
P F Wheel Center Locks: Make sure locking devi	
	cords or blisters; The tires used at the track should be teched on this form.
P F Brake System: Sufficient brake pads (3/16"/4.8s visible cracks extending to the edge of the rotor. With	8mm minimum); rotors and pads are in good condition; no cuts or abrasions in brake lines. There should be no th co-driver, pads should exceed minimum standard.
Vehicle MUST be raised to complete the remain	ning inspections:
P F <u>Wheel Bearings:</u> Proper free rotation; No loose	eness in hub.
	nts and tie rods secure; boots and all seals in good condition.
	bolts, half shaft boots in good condition; mounting hardware in good condition; no leakage.
P F <u>Exhaust</u> : Securely fastened and in good condition	n.
